Modular sports floor for Indoors

WHY MODULAR SPORTS FLOOR?

Sports Partner is a **portuguese company** dedicated to sports, which focuses on the manufacture of its own **modular sports floors**, guaranteeing innovation, quality and differentiation. Thanks to its 25cm x 25cm reinforced modules with 7 male and female connection points, we offer you several advantages in sports. You can prove that this is the **best solution in the market**, considering **Quality, Cost, Versatility** and **Warranty**.

FUNCTIONAL ADVANTAGES

- » No maintenance costs;
- » 15 years of guarantee provided directly by Sports Partner the official manufacturer;
- » Wide range of colors available to customize your sports floor;
- » Easy and quick repair. With this solution it will not be necessary to resort to deep or delayed patches and interventions;
- » Advertising through alteration of some modules;
- » Easy and quick assembly / disassembly without the use of glues in the base, and easy to transport;
- » Applicable on any rigid and flat surface;
- » Possible to install in other existing floors;
- » Order already with sport marking done in our factory. So it will only take one day to install your sports floor;

SPORTS ADVANTAGES

- » Suitable for all sports, including roller skate sports;
- » Matte finish with no gloss, eliminates light reflections;
- » High levels of adhesion, thanks to the microtexture specially developed in the tile surface;
- » The only sports floor that provides vertical and lateral shock absorption;
- » Certified by several National and International Sports Federations;
- » Anti-bacterial sports floor not susceptible to bacteria and fungi - hygienic and easy to clean;

CERTIFICATIONS

Our modular sports floors are used by several National and International Sports Federations, being considered the Official Floor.

SPORTS FLOOR
naxos[®]

MASTER

The true dream of any athlete!

The only indoor modular sports floor with a shock absorption system with air cushioning incorporated in each tile. Curious?

WHY NAXOS MASTER?

Naxos Master indoor sports floor was developed under the guidance of sports professionals from all over the world (professional athletes, coaches and physicians), which allowed us to develop a last generation **indoor sports floor** in the market: a modular pavement with a **shock absorption system with air cushioning incorporated in each tile**.

ADVANTAGES OF THE SHOCK ABSORPTION SYSTEM (WITH INCORPORATED AIR CUSHIONING)

UNIQUE CONFORT

Indoor sports floor with shock absorption system and air cushioning in each tile. Provides vertical and lateral shock absorption with air cushion effect completely uniform and continuous in all the floor and an unique comfort for the athletes in the sport activity;

LESS HUMIDITY = MORE GRIP

Elimination of humidity, made possible through the round openings of the system, allows the air to circulate, reinforcing the excellent levels of adhesion;

EASY TO ASSEMBLE

Shock absorption system in corrugated rubber with fixing to the polypropylene module carried out in only 4 connection points. Provides easy assembly, disassembly and replacement if needed;

ABSORPTION OF UNEVENNESS IN THE BASE

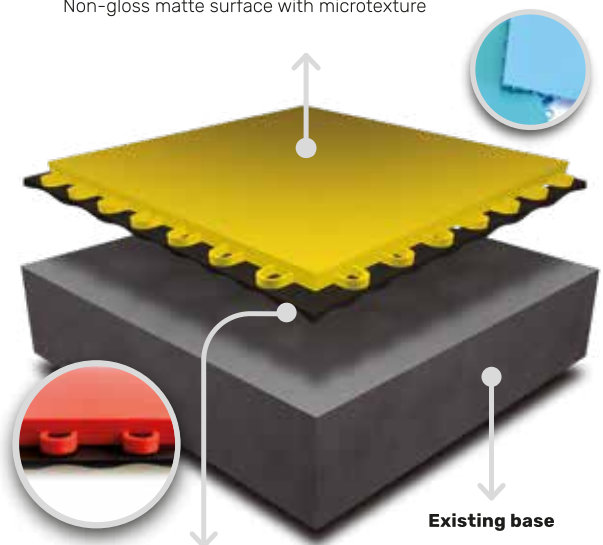

Absorption of small unevenness and irregularities;

ACOUSTIC INSULATION

Reduces the noise caused by the practice of sport and by the ball;

Polypropylene Module

25x25x1,5 with 7 male/female insertion points
Non-gloss matte surface with microtexture

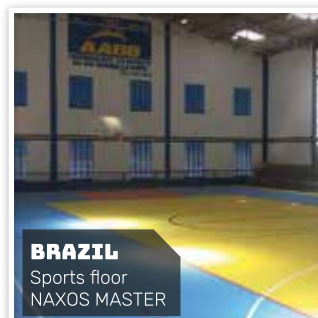

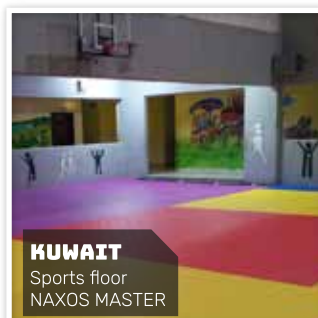

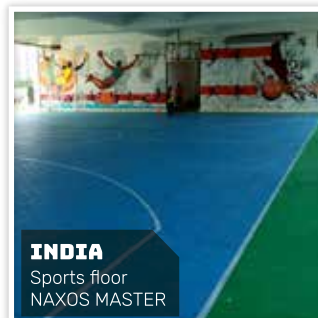

Shock absorption system (incorporated in each tile)
in corrugated rubber with air cushioning effect

WHERE WE ARE

Our sport floors are present all over the world. From India to Chile, from Costa Rica to Qatar, Slovakia, all Eastern Europe and North Africa.

YOURS NAXOS MASTER
