

OMNIDECK™

PURCHASE REFERENCES

U.S. Bank Stadium – NFL stadium in Minneapolis, Minnesota, USA

Ed Kroics, Operations Manager at U.S. Bank Stadium

Jeff Klein, U.S. Bank Stadium Assistant Director of Operations

“Time is money, and having an efficient system is very important. It’s especially important here since unlike most stadiums with 8-10 changeovers in a season, we have 40-60. We chose the OmniDeck because of its easy installation in any direction. Working with Signature Systems is great because they always answer a call, and they sent a crew to help train us in the installation and maintenance of the new product.”

– Jeff Klein, U.S. Bank Stadium

Arthur Ashe Stadium – U.S. Open stadium in Queens, New York

Adam Sinclair, USTA Senior Director of Facility Operations at Arthur Ashe Stadium

“The importance of having a floor that could offer us the protection that we need to protect the tennis courts for our biggest sports events was of necessity. From the start of the process to now, everybody at Signature Systems has been great. We were on a tight schedule with the upcoming event, so I couldn’t be more pleased with the experience and certainly now seeing the floor for the first time I couldn’t be happier.”

– Adam Sinclair, Arthur Ashe Stadium

Lucas Oil Stadium – NFL stadium in Indianapolis, Indiana

Erik Harlow, Lucas Oil Stadium Field Manager

“The speed of installation of OmniDeck required little training for the installation crew to get right to work. The built-in lock system with no loose parts, including the visual lock/unlock indicators molded into the panels made the installation easy.”

– Erik Harlow, Lucas Oil Stadium
